# PROJECT SHINGAL CLINIC

## NORTHERN IRAQ

IN COLLABORATION WITH MULTI ORGANIZATIONS FROM AROUND THE WORLD  
WORKING FOR THE COMMON GOOD OF HUMANITY  
SERVING THE VICTIMS & THE DEVASTATED BY ISIS

## Y.E.S WE CAN! (YEZIDI EMERGENCY SUPPORT) ANTENATAL CLINIC AND CHILD FRIENDLY SPACE OPEN IN SHINGAL!

After months of collaboration, renovation and determination and due to the hard work of [Baderkhan Kassim](#), [Khairi Aezdeen](#) and Dr. [Hussein Nasser Ra Sho](#) we are proud to announce the opening of this centre to provide education and healthcare to a population who have virtually nothing. Over 120 children will now have a wonderful place for lessons and a safe and fun environment thanks to One and All Aid ( UK)

Hundreds of pregnant women will be able to receive monitoring and educational talks and support from FEMALE medics at last thanks to Without Borders ( USA), IMSA ( Iraqi Medical Assoc USA) and Espoir Et Aide ( France) funding.

Many thanks to our friends, many kind individuals and fellow NGOs, and the support of Eagle Watch ( Poland). Working together with others is how it should be and we implore others to help those in Sinjar in desperate need.

We were delighted that local officials from all parties and factions attended the opening to provide support.

This is no mean achievement in a complex political climate when much bigger NGOs have left the area. To provide some hope, aid and much needed education will mean so much to those who had almost given up on help !
